

## 3 IN 1 SHOWER AND TILE CLEANER

Ready to use, 3 in 1 formula. Triple action product for the descaling, protection and sanitizing of taps and bathroom surfaces. Indicated for the removal of limescale and heavy water deposits and for the protection of glass surfaces such as shower screens preventing and delaying of new calcareous deposit. It leaves leaving a brilliant finish.

## SURFACES

The product is suitable for shower screens, tap, sanitary ware, glass and mirrors, bathroom surfaces, ceramics and external glass walls.

## FEATURES

Effective solution for preventing limescale build ups. Deep cleaner and sanitizer for daily use, it protects the surface and prevents limescale re-formation. When applied to shower screens and glass surfaces, the product allows the water to run away preventing further calcareous build ups. Ideal for the cleaning and protection of taps and chrome surfaces, plexiglass and ceramics. It removes stubborn soap scum and deposits.

## HOW TO USE

Spray the product directly to area to be cleaned at a 15-20 cm distance. Allow a few minutes contact time. Clean the surface using a damp microfibre cloth or sponge. Rinse with water.

## CHEMICAL PROPERTIES

APPEARANCE: Liquid

COLOUR: Blue

ODOUR: Fresh

SOLUBILITY: Soluble in water

PH: 2,80 ± 0,50

## COVERAGE FOR LITRE

Approximately 50-60 m<sup>2</sup>

(Product coverage may vary depending on type and porosity of material where used)

## PACKING

Code	Content	Pc./Carton
PI053DO07L	750ml	12

MADE IN ITALY

## ADVANTAGES

Special formulation gives the surfaces an “easy clean” effect. Active foam formulation with a very efficient action on vertical surfaces. Applied on vertical surfaces the product will not drip therefore having longer contact time the surface will get better cleaned. It leaves an intense and pleasant perfume to the cleaned surfaces. Simple to apply, it makes cleaning faster and easier. The product is easy to rinse and leave no smudges.

## ADVICE

On stubborn and intense limescale deposits, we recommend to leave the product on for 2-3 minutes then scrub the area with a mild abrasive sponge and rinse with plenty of water. Repeat the operation if needed. On shower wall apply the product starting from the top. On acid sensitive surfaces (polished marble) test the product first on a small hidden area so to determine product compatibility on material. (\*Note: product may remove or etch polished marble surfaces).

### ATTENTION:

Carefully read the recommendations printed on the label. Store in its original packaging. Do not dispose of the container in the environment after use, follow the disposal information indicated on the label. Keep out of the reach of the children. Check the actual reaction of the material to the product on a hidden portion of the surface to be treated. When using the product, use suitable PPD and consult the safety data sheet.
