

BLADEMASTER

ULTIMATE HIGH-SPEED DEMOLITION/CONCRETE BLADE

INTRODUCING BLADEMASTER...

The ultimate laser-welded segmented diamond blade designed for cured concrete with the best cost/performance on the market. The 14mm segment height combined with the multi-Layer arranged diamond technology ensures a very fast cutting speed and a long life on popular high-speed demolition saws. Although it is designed for high-speed application, the multi-layer arranged diamond technology along with titanium-coated premium diamond grit allows this blade to work on other types of saws between 5 to 25 HP motor and cuts a diverse range of materials whether it is a wet or dry application.

PART NO.	SIZE	THICKNESS	MAXIMUM RPM	ARBOR(S)	RECOMMENDED FOR
BML1214	12"	2.9mm	6,200	1" w/pin hole	Cured Concrete
BML1414	14"	3.0mm	5,360	1" w/pin hole	Cured Concrete
BML1614	16"	3.1mm	4,700	1" w/pin hole	Cured Concrete
