

L17 ANTIDROP

Waterproof and oilproof protector for marbles, stones and granites

A) DESCRIPTION AND FIELDS OF APPLICATION:

Just one product protects, impregnates, waterproofs, and oilproofs marbles, stones and granites. Antidrop was specifically designed to protect stony materials from moisture and smog - in outdoor application- and from oil, grease, staining, kitchen fumes - in indoor applications.

- * Easily penetrates the material it protects, leaving no surface film;
- * Provides long-lasting protection outdoors;
- * Non-yellowing. Does not alter the colors of the materials it covers;
- * Allows the material to breathe. Prevents efflorescences;
- * UV stabilized. Excellent resistance to acid rains;
- * Non toxic when dry;
- * Antisticking and antistatic. Leaves the base permanently clean.

B) TECHNICAL DATA:

Composition	Solution of oilproof polymers
Specific weight	0,89 ± 0,05
Available colours	Colourless
Safety data	See safety data sheet.

C) PROCESSING :

Make certain that the surfaces are clean, dry, and free from waxes. Antidrop can be applied by brush or low-pressure spraying in one or more coats, depending on the porosity of the material being treated. It is fully effective 6 hours after its application.

D) CAUTIONS:

- * Do not utilize the product at temperatures below 5 °C.
- * After storage at low temperatures, it is recommended to recondition the product at 20 °C before using.
- * Use in an airy room.
